Annual Filing Affidavit

The State of Texas

County of Travis

I, Paul E. Barker
(Name of Duly Authorized District Representative)

of the Travis County Water Control and Improvement District No. 10.

hereby swear, or affirm, that the District named above has reviewed and approved at a meeting of the Board of Directors of the District on the 10th day of January, 2024, its annual audit report for the fiscal year ended September 30, 2023 and that copies of the annual audit report have been filed in the District office, located at 5324 Bee Cave Road, Austin, Texas 78746.

The annual filing affidavit and the attached copy of the audit report are being submitted to the Texas Commission on Environmental Quality in satisfaction of all annual filing requirements within Section 49.194 of the Texas Water Code and to the Texas Comptroller of Public Accounts in satisfaction of the annual filing requirements of Section 140.008 of the Texas Local Government Code.

Date: January 10th, 2024. By: Paul E. Barker
(Signature of District Representative)

Paul Barker, Board President
(Typed Name and Title of above District Representative)

Sworn to and subscribed to before me this 10th day of January, 2024.

Louise B. Winder
(Signature of Notary)

(SEAL)

Louise B. Winder
(Printed Name of Notary)

My Commission Expires On: 12-20-2024
Notary Public in and for the State of Texas.

Independent Auditors' Report

To the Board of Directors of
Travis County Water Control and Improvement District No. 10:

Opinions

We have audited the financial statements of the governmental activities and each major fund of Travis County Water Control and Improvement District No. 10 (the "District"), as of and for the year ended September 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of September 30, 2023, and the respective changes in financial position and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Affiliated Company

ML&R WEALTH MANAGEMENT LLC

"A Registered Investment Advisor"

This firm is not a CPA firm

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information required by the Texas Commission on Environmental Quality (the "TCEQ") listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information required by the TCEQ listed in the table of contents is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Travis County Water Control and Improvement District No. 10

Management’s Discussion and Analysis For the Year Ended September 30, 2023

In accordance with Governmental Accounting Standards Board (“GASB”) Statement No. 34, the management of Travis County Water Control and Improvement District No. 10 (the “District”) offers the following narrative on the financial performance of the District for the year ended September 30, 2023. Please read it in connection with the District’s financial statements that follow.

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the “Total Governmental Funds” column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the Statement of Net Position and the Statement of Activities.

Overview of the Basic Financial Statements

The District’s reporting is comprised of two parts:

- *Management’s Discussion and Analysis* (this section)
- *Basic Financial Statements*
 - *Statement of Net Position and Governmental Funds Balance Sheet*
 - *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*
 - *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund*
 - *Notes to Basic Financial Statements*

Other supplementary information is also included.

The *Statement of Net Position and Governmental Funds Balance Sheet* includes a column (titled “Total Governmental Funds”) that represents a balance sheet prepared using the modified accrual basis of accounting. The adjustments column converts those balances to a balance sheet that more closely reflects a private-sector business. Over time, increases or decreases in the District’s net position will indicate financial health.

The *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances* includes a column (titled “Total Governmental Funds”) that derives the change in fund balances resulting from current year revenues, expenditures, and other financing sources or uses. These amounts are prepared using the modified accrual basis of accounting. The adjustments column converts those activities to full accrual, a basis that more closely represents the income statement of a private-sector business.

The *Statement of Revenues, Expenditures, and Changes in Fund Balance - Budget and Actual - General Fund* presents a comparison statement between the District’s adopted budget to its actual results.

The *Notes to Basic Financial Statements* provide additional information that is essential to a full understanding of the information presented in the *Statement of Net Position and Governmental Funds Balance Sheet* and the *Statement of Activities and Governmental Funds Revenues, Expenditures, and Changes in Fund Balances*.

Schedules required by the Texas Commission on Environmental Quality are presented immediately following the *Notes to Basic Financial Statements*.

Comparative Financial Statements

Statement of Net Position

	Governmental Activities		
	2023	2022	% Change
Current assets	\$ 31,087,499	\$ 33,217,476	(6%)
Capital assets	52,300,136	48,882,525	7%
Total assets	<u>\$ 83,387,635</u>	<u>\$ 82,100,001</u>	<u>2%</u>
Current liabilities	\$ 3,285,509	\$ 3,822,622	(14%)
Long-term liabilities	35,644,317	37,218,724	(4%)
Total liabilities	<u>\$ 38,929,826</u>	<u>\$ 41,041,346</u>	<u>(5%)</u>
Net investment in capital assets	\$ 21,856,298	\$ 20,740,873	5%
Restricted	645,259	513,415	26%
Unrestricted	21,956,252	19,804,367	11%
Total net position	<u>\$ 44,457,809</u>	<u>\$ 41,058,655</u>	<u>8%</u>

The District's total assets were approximately \$83.4 million as of September 30, 2023. Of this amount, approximately \$52.3 million was accounted for by capital assets. The District had outstanding liabilities of approximately \$38.9 million. Of this amount, approximately \$37.2 million was accounted for by bonds payable.

The District's property tax assessed value for fiscal year 2023 (which is based on the 2022 tax levy) was \$6.2 billion compared to approximately \$5.1 billion for fiscal year 2022. The tax rate is set after reviewing operations and maintenance requirements and proposed water rates. The District's primary revenue sources are utility services and property taxes.

Sources of Revenue

Statement of Activities

	Governmental Activities		
	2023	2022	% Change
Utility services	\$ 5,750,529	\$ 5,514,212	4%
Taxes and miscellaneous	5,771,412	4,385,050	32%
Total revenues	<u>11,521,941</u>	<u>9,899,262</u>	<u>16%</u>
Purchased water	2,944,004	2,945,072	(<1%)
Professional fees	190,918	264,488	(28%)
Contracted services	456,724	281,710	62%
Consumable supplies and materials	1,419,377	644,694	120%
Recurring operating	1,161,548	865,345	34%
Capital outlay	-	69,559	(100%)
Debt service	1,037,931	1,068,006	(3%)
Depreciation	<u>912,285</u>	<u>701,564</u>	<u>30%</u>
Total expenses	<u>8,122,787</u>	<u>6,840,438</u>	<u>19%</u>
Change in net position	3,399,154	3,058,824	11%
Beginning net position	<u>41,058,655</u>	<u>37,999,831</u>	<u>8%</u>
Ending net position	<u>\$ 44,457,809</u>	<u>\$ 41,058,655</u>	<u>8%</u>

Operating revenues increased by approximately \$1.6 million to approximately \$11.5 million for the fiscal year ended September 30, 2023. Utility services provided approximately \$5.7 million in revenue and property taxes and other revenues generated approximately \$5.8 million in revenues. Total expenses increased approximately \$1.3 million to approximately \$8.1 million for the fiscal year ended September 30, 2023. Net position increased approximately \$3.4 million for the fiscal year ended September 30, 2023 compared to an increase of approximately \$3.1 million for the fiscal year ended September 30, 2022.

Analysis of Governmental Funds

Government Funds by Year

	<u>2023</u>	<u>2022</u>	<u>2021</u>
Cash	\$ 554,834	\$ 447,031	\$ 237,903
Investments	28,653,566	31,107,484	36,885,967
Receivables and prepaids	1,879,099	1,662,961	1,456,474
Interfund receivable	519	5,961	2,301
Total assets	<u>\$ 31,088,018</u>	<u>\$ 33,223,437</u>	<u>\$ 38,582,645</u>
Accounts payable	\$ 1,045,552	\$ 1,675,987	\$ 1,667,740
Customer deposits	508,881	458,866	434,386
Other liabilities	29,806	27,674	20,963
Interfund payable	519	5,961	2,301
Total liabilities	<u>1,584,758</u>	<u>2,168,488</u>	<u>2,125,390</u>
Deferred inflows of resources	<u>102,037</u>	<u>77,818</u>	<u>76,195</u>
Nonspendable	5,912	5,015	4,646
Restricted for debt service	707,907	594,879	569,681
Restricted for capital projects	6,775,479	10,607,072	18,056,461
Assigned for subsequent year budget	6,906,802	-	-
Unassigned	<u>15,005,123</u>	<u>19,770,165</u>	<u>17,750,272</u>
Total fund balances	<u>29,401,223</u>	<u>30,977,131</u>	<u>36,381,060</u>
Total liabilities, deferred inflows of resources and fund balances	<u>\$ 31,088,018</u>	<u>\$ 33,223,437</u>	<u>\$ 38,582,645</u>

The *General Fund* pays for daily operating expenditures. When comparing actual to budget, expenditures were less than budgeted by approximately \$742,000 due primarily to less capital outlay and conservative budgeting. Revenues were more than budgeted by approximately \$1.4 million due mainly to service revenue and interest on investments. More detailed information about the District's budgetary comparison is presented in the *Basic Financial Statements*.

The *Debt Service Fund* remitted bond principal of \$1.5 million and bond interest of approximately \$1.0 million. More detailed information about the District's debt is presented in the *Notes to Basic Financial Statements*.

The *Capital Projects Fund* purchases primarily the District's infrastructure. During the year, approximately \$4.2 million was spent in the Capital Projects Fund to install larger diameter waterlines throughout select portions of the District.

Capital Assets and Long-Term Debt Activity

Capital Assets

	<u>2023</u>	<u>2022</u>
Land	\$ 1,405,272	\$ 1,405,272
Infrastructure	50,267,502	33,515,463
Buildings	414,712	371,885
Construction in progress	9,929,326	22,394,296
Other	227,215	227,215
Subtotal	62,244,027	57,914,131
Accumulated depreciation	(9,943,891)	(9,031,606)
Total	<u>\$ 52,300,136</u>	<u>\$ 48,882,525</u>

During the year, approximately \$4.4 million was added to capital assets related to capital improvements made within the District. More detailed information about the District's capital assets is presented in the *Notes to Basic Financial Statements*.

Long-Term Debt

Bonds payable consisted of the following at September 30, 2023:

Current portion	\$ 1,575,000
Long-term portion	<u>35,655,000</u>
Total	<u>\$ 37,230,000</u>

The District owes approximately \$37.2 million to bond holders. More detailed information about the District's long-term debt is presented in the *Notes to Basic Financial Statements*.

Currently Known Facts, Decisions, or Conditions

The fiscal year 2024 tax rate (2023 tax year) has been set at \$0.0634 per \$100 of assessed valuation, which consists of \$0.0234 for maintenance and operations and \$0.0400 for debt service. The adopted budget for fiscal year 2024 projects a decrease in operating fund balance of \$6,906,802. When compared to the fiscal year 2023 budget, revenues are expected to increase by approximately 14% and expenditures are expected to increase by approximately 113%.

Requests for Information

This financial report is designed to provide a general overview of the District's finances and to demonstrate the District's accountability for the funds it receives. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the District at 5324 Bee Cave Road, Austin, Texas 78746.

The notes to the financial statements are an integral part of this statement.

Travis County Water Control and Improvement District No. 10

Notes to Basic Financial Statements Year Ended September 30, 2023

1. Summary of Significant Accounting Policies

Travis County Water Control and Improvement District No. 10 (the “District”) was created by the Travis County Commissioners Court on September 29, 1956, in accordance with Article XVI, Section 29 of the Constitution of the State of Texas (the “State”) and with Chapter 54 of the Texas Water Code. The Board of Directors (the “Board”) held its first meeting April 5, 1956, and the first bonds of the District were issued August 1, 1957.

The reporting entity of the District encompasses those activities and functions over which the District’s elected officials exercise significant oversight or control. The District is governed by a five member Board which has been elected by District residents or appointed by the Board. The District is not included in any other governmental “reporting entity” as defined by the Governmental Accounting Standards Board (“GASB”) since Board members are elected by the public and have decision making authority, the power to designate management, the responsibility to significantly influence operations and primary accountability for fiscal matters. In addition, there are no component units which are included in the District’s reporting entity.

Government-wide and Fund Financial Statements

For purposes of GASB Statement No. 34, the District is considered a special purpose government. This allows the District to present the required fund and government-wide statements in a single schedule. The requirement for fund financial statements that are prepared on the modified accrual basis of accounting is met with the “Total Governmental Funds” column. An adjustment column includes those entries needed to convert to the full accrual basis government-wide statements. Government-wide statements are comprised of the statement of net position and the statement of activities. The government-wide financial statements report information on all of the activities of the District. The effect of interfund activity has been removed from these statements.

The statement of activities demonstrates the degree to which the expenses are offset by program revenues. Program revenues include charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the District. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Amounts reported as program revenues include charges to customers or applicants for goods, services, or privileges provided. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include interest income. No accrual for property taxes collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end are reported as deferred inflows of resources.

The District reports the following major governmental funds:

The General Fund includes financial resources used for general operations. It is a budgeted fund, and any unassigned fund balance is considered resources available for current operations.

The Debt Service Fund includes debt service taxes and other revenues collected to retire bond principal and to pay interest due.

The Capital Projects Fund is used to account for financial resources restricted for authorized construction and other capital asset acquisitions.

Budgets and Budgetary Accounting

Formal budgetary integration is employed as a management control device for the General Fund. Formal budgetary integration is not employed for the Debt Service Fund and Capital Projects Fund. The budget is proposed by the District's General Manager for the fiscal year commencing the following October 1, and is adopted on the modified accrual basis, which is consistent with generally accepted accounting principles.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

Investments - Temporary investments throughout the year consisted of investments in an external local government investment pool and certificates of deposit. The external local government investment pool is recognized at amortized cost as permitted by GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The District's deposits and investments are invested pursuant to the investment policy, which is approved annually by the Board. The District's investment policies and types of investments are governed by Section 2256 of the Texas Government Code ("Public Funds Investment Act"). The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policy. The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments.

Accounts Receivable - The District provides for uncollectible accounts receivable using the allowance method of accounting for bad debts. Under this method of accounting, a provision for uncollectible accounts is charged to earnings. The allowance account is increased or decreased based on past collection history and management's evaluation of accounts receivable. All amounts considered uncollectible are charged against the allowance account, and recoveries of previously charged off accounts are added to the allowance. The District believes all accounts were collectible at September 30, 2023.

Prepaid Items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid assets in both the government-wide and fund financial statements. Prepaid assets are charged to expenditures when consumed.

Capital Assets - Capital assets, which include land, infrastructure (water systems purchased, constructed, or donated in years ending after September 30, 1980), buildings, vehicles, furniture and equipment, construction in progress, and other capital assets are reported in the governmental activities columns in the government-wide financial statements. Generally, capital assets are defined by the District as assets with an initial, individual cost of at least \$2,500. Such assets are recorded at historical cost if purchased or estimated acquisition value at the date of donation if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Capital assets (other than land and construction in progress) are depreciated using the straight line method over the following estimated useful lives: infrastructure - fifty years, buildings - thirty years, vehicles - five years, furniture and equipment - five to twenty years, and other capital assets - five to ten years.

Interfund Transactions - Transfers from one fund to another fund are reported as interfund receivables and payables if there is intent to repay that amount and if the debtor fund has the ability to repay the advance on a timely basis. Operating transfers represent legally authorized transfers from the fund receiving resources to the fund through which the resources are to be expended.

Long-Term Debt - Unlimited tax bonds, which have been issued to fund capital projects, are to be repaid from tax revenues of the District.

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums and discounts on debt issuances are reported as other financing sources and uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Fund Equity - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. See Note 8 for additional information on those fund balance classifications.

Ad Valorem Property Taxes - Property taxes, penalties, and interest are reported as revenue in the fiscal year in which they become available to finance expenditures of the District. Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds, if any, are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Deferred Outflows and Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent the consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Fair Value Measurements - The District complies with GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access.
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity.
- Level 3 inputs are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available.

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities.
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost).
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations.

Use of Estimates - The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

Change in Accounting Principle for Recently Adopted Accounting Pronouncement

For the year ended September 30, 2023, the District implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. The objective of GASB Statement No. 96 is to better meet the information needs of financial statement users by establishing uniform accounting and financial reporting requirements for subscription-based information technology arrangements ("SBITAs"), improving the comparability of financial statements among governments that have entered into SBITAs, and enhancing the understandability, reliability, relevance, and consistency of information about SBITAs. The adoption did not have an impact on the District's statement of net position or statement of revenues, expenses and changes in net position as the District did not have any significant SBITAs.

2. Reconciliation of Government-Wide and Fund Financial Statements

Amounts reported for governmental activities in the statement of net position are different because:

Governmental funds total fund balances	\$ 29,401,223
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	52,300,136
Deferred tax revenue is not available to pay for current-period expenditures and, therefore, is deferred in the funds.	102,037
The following liabilities are not due and payable in the current period and, therefore, are not reported in the funds:	
Bonds payable, net of discount	(37,219,317)
Bond interest payable	<u>(126,270)</u>
Total net position	<u>\$ 44,457,809</u>

Amounts reported for governmental activities in the statement of activities are different because:

Change in fund balances	\$ (1,575,908)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense:	
Capital outlay	4,370,403
Depreciation expense	(912,285)
Disposal of capital assets	(40,507)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	
Change in deferred tax revenue	24,219
Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	
Repayment of bond principal	1,530,000
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:	
Change in bond interest payable	3,825
Amortization of original issue discount	<u>(593)</u>
Change in net position	<u>\$ 3,399,154</u>

3. Cash and Temporary Investments

The District's deposits are required to be secured in the manner provided by law for the security of the funds. At September 30, 2023, such deposits were entirely covered by Federal Deposit Insurance Corporation ("FDIC") insurance or secured by collateral pledged by the depository.

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy. The District's deposits and investments are invested pursuant to the investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy, in order of priority, are safety, liquidity, and yield.

The District is entitled to invest in obligations of the United States of America, the State and their agencies, or any state, county, city and any other political subdivisions of any state rated by a nationally recognized investment rating firm with a rating not less than A or its equivalent, certificates of deposit of state or national banks or savings and loan associations within the State, prime domestic bankers' acceptances, commercial paper with a stated maturity of 270 days or less from the date of its issuance, fully collateralized repurchase agreements, no-load money market mutual funds regulated by the United States Securities and Exchange Commission, and eligible public funds investment pools.

Investments held at September 30, 2023, consisted of the following:

Type	Fair Value	Weighted Average Maturity (Days)	Standard & Poor's Rating
Certificates of deposit	\$ 915,000	80	N/A
Public funds investment pool - TexPool	<u>27,738,566</u>	1	AAAm
Total	<u>\$ 28,653,566</u>		

TexPool - The Comptroller of Public Accounts is the sole officer and director of the Texas Treasury Safekeeping Trust Company, which is authorized to operate the state investment pool ("TexPool"). Although TexPool is not registered with the SEC as an investment company, they operate in a manner consistent with the SEC's Rule 2a-7 of the Investment Company Act of 1940. These investments are stated at amortized cost in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*. TexPool also has an advisory board to advise on TexPool's investment policy. This board is made up equally of participants and nonparticipants who do not have a business relationship with TexPool. Federated Investors manage daily operations of TexPool under a contract with the Comptroller and is the investment manager for the pool. TexPool's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

In accordance with GASB Statement No. 79, the external local government investment pool does not have any limitations and restrictions on withdrawals such as notice periods or maximum transaction amounts. This pool does not impose any liquidity fees or redemption gates.

Credit Risk - At September 30, 2023, investments were included in an external local governmental investment pool and certificates of deposit with ratings from Standard & Poor's in compliance with the District's investment policy.

Interest Rate Risk - The District considers the holdings in the external local governmental investment pool to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. At September 30, 2023, the District's holdings in certificates of deposit had a weighted average maturity of 80 days.

4. Capital Assets

Capital assets activity for the year ended September 30, 2023 was as follows:

	Balance September 30, 2022	Additions	Retirements and Transfers	Balance September 30, 2023
Capital assets, not being depreciated:				
Land	\$ 1,405,272	-	-	1,405,272
Construction in progress	22,394,296	4,220,707	(16,685,677)	9,929,326
Total capital assets, not being depreciated	23,799,568	4,220,707	(16,685,677)	11,334,598
Capital assets being depreciated:				
Water systems	33,515,463	106,869	16,645,170	50,267,502
Buildings	371,885	42,827	-	414,712
Vehicles	103,433	-	-	103,433
Furniture and equipment	49,502	-	-	49,502
Organizational costs	74,280	-	-	74,280
Total capital assets being depreciated	34,114,563	149,696	16,645,170	50,909,429
Less accumulated depreciation for:				
Water systems	(8,823,239)	(865,392)	-	(9,688,631)
Buildings	(73,595)	(25,723)	-	(99,318)
Vehicles	(36,395)	(17,869)	-	(54,264)
Furniture and equipment	(24,097)	(3,301)	-	(27,398)
Organizational costs	(74,280)	-	-	(74,280)
Total accumulated depreciation	(9,031,606)	(912,285)	-	(9,943,891)
Total capital assets being depreciated, net	25,082,957	(762,589)	16,645,170	40,965,538
Capital assets, net	<u>\$ 48,882,525</u>	<u>3,458,118</u>	<u>(40,507)</u>	<u>52,300,136</u>

5. Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as “due from other funds” or “due to other funds.” The composition of interfund balances as of September 30, 2023 is as follows:

Receivable Fund	Payable Fund	Amount
General	Debt Service	<u>\$ 519</u>

6. Long-Term Debt

The following is a summary of changes in long-term debt for the year ended September 30, 2023:

	Balance September 30, 2022	Additions	Retirements	Balance September 30, 2023
Bonds payable	\$ 38,760,000	-	(1,530,000)	37,230,000
Issuance discount on bonds	(11,276)	-	593	(10,683)
Total	<u>\$ 38,748,724</u>	<u>-</u>	<u>(1,529,407)</u>	<u>37,219,317</u>

Long-term debt at September 30, 2023 was comprised of the Series 2016 Unlimited Tax Bonds, due in annual installments from August 15, 2018 thru 2041. Interest varies from 2.00% to 3.00% and is payable on February 15 and August 15 each year.

The bonds require that the District levy and collect an ad valorem debt service tax sufficient to pay interest and principal on bonds when due and cover the cost of assessing and collecting taxes. These provisions have been met, and the cash allocated for these purposes is sufficient to meet debt service requirements through the fiscal year ended September 30, 2023.

Debt service requirements to maturity for District's bonds are summarized as follows:

Fiscal Year	Principal	Interest	Total Requirement
2024	\$ 1,575,000	1,010,163	2,585,163
2025	1,625,000	978,662	2,603,662
2026	1,670,000	946,163	2,616,163
2027	1,720,000	912,762	2,632,762
2028	1,775,000	878,363	2,653,363
2029-2033	9,705,000	3,732,662	13,437,662
2034-2038	11,365,000	2,214,300	13,579,300
2039-2041	7,795,000	473,100	8,268,100
Total	<u>\$ 37,230,000</u>	<u>11,146,175</u>	<u>48,376,175</u>

At September 30, 2023, there were \$1,510,000 of bonds authorized by voters of the District but unissued.

7. Property Taxes

The Texas Water Code authorizes the District to levy a tax each October 1 on the assessed value listed as of the prior January 1 for all real and business personal property located within its boundaries. Assessed values are established annually by the Travis Central Appraisal District. District property tax revenues are recognized when levied to the extent that they are collected in the current year. The uncollected balance is reported as deferred revenue. Taxes receivable are due January 1 and are delinquent if received after January 31 and are subject to penalty and interest charges.

In September 2022, the District levied a combined tax rate of \$0.0675 per \$100 of assessed valuation to finance operating expenditures and debt service requirements. The maintenance tax rate and the debt service tax rate were \$0.0250 and \$0.0425, respectively. The total 2022 tax levy was \$4,171,619 based on a taxable valuation of \$6,197,545,997.

8. Fund Balances

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, amounts that are appropriated by the Board that are to be used for specific purposes. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

The detail of the fund balances are included in the Governmental Funds Balance Sheet on page 10.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board may also assign fund balance for a specific purpose.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

The District has adopted a minimum fund balance requirement in the General Fund equal to twelve months of operating expenditures.

9. Commitments and Contingent Liabilities

The District entered into an agreement in 1987 which obligates the District to reimburse costs incurred by Travis County to relocate a District waterline. The District's obligation for this relocation, which was necessitated by a capital improvement project undertaken by Travis County, was not to exceed \$100,000. No request for reimbursement has been presented to the District at this time, although the project was completed during 1988. The District has not recorded a liability associated with this project as its monetary obligation is not presently determinable.

10. Risk Management

The District's risk management program includes coverage through third party insurance providers for automobile liability, director and officer liability, public officials position liability and commercial umbrella and general liability. During the year ended September 30, 2023, there were no significant reductions in insurance coverage from coverage in the prior year. Losses in excess of the various deductible levels are covered through traditional indemnity coverage with various insurance firms. Settled claims have not exceeded insurance limits for the past three years.

11. Retirement Plan

The District has a Simplified Employee Pension Plan (the "Plan") for the benefit of the employees of the District. The employees may contribute to the Plan subject to certain limitations. Under the provisions of the Plan, the District may make discretionary contributions. The District made contributions to the Plan of \$54,825 during the year ended September 30, 2023.
